IDENTIFICATION OF DOCUMENT (author, form, address, title & length) 25X1A Memorandum from [REDACTED], Chief Global Survey Group to the Ad/ORE. Subj: Comments on Staff Study, "A Concept of Natl. Intel. Production on the Far East." (Tab A) 2 pp.			LOCATION: HS/HC-100 u Item 21 ✓

**ABSTRACT**

This memo suggests that the Staff Study above should be withdrawn for the following reasons: the concept is communistic and adverse to NSC documents and U.S. policy, the estimate of the significance of the Far East is inaccurate and prejudicial, the approach through verboisness and propaganda is unnecessary, and the conclusions reached are so obvious and general that "the NSC would question the competence of a DCI who submitted" them.
